- Education support program
- On-the-job training
- Employee referral program
- Personal protective equipment allowance

Position Summary

The Plant Supervisor shall ensure that all employees meet production and shipping schedules, product quality, packaging and safety requirements of the company. This includes employee supervision, liaising with all departments including production, shipping and maintenance. The incumbent is also responsible for trouble shooting, health safety issues, and employee training.

What you'll do:

- Supervise, co-ordinate and schedule daily, the activities of workers and temp workers to ensure orders can be completed; meeting customers & inter departmental requirements.
- Conduct and document daily workplace walks; inspect product quality; observe for unsafe acts and unsafe conditions; and resolve workers and safety concerns and problems.
- Confer with department supervisors to determine progress of work and to provide information on changes in processing methods received from methods or engineering departments.
- Assist in setting-up equipment and troubleshoot quality and machine problems and ensure that systems/equipment operate efficiently and effectively.

What you'll need:

- 3-5 years of dispatching experience in a manufacturing environment preferred.
- Strong negotiation and communication skills in English and French.
- Knowledgeable in the operation of equipment/tools such as roll former, forklift (counterbalance), overhead crane, strapping machine, natural gas fuel station, chop saw, mobile ladder, two-way radio, etc.
- Sound knowledge of the Health and Safety Act and regulations, Bailey products, and policies.
- Proficient with MS Office and SAP.

Working Conditions:

- Fast-paced plant environment, PPE required.
- Monday to Friday.
- Overtime as required.
